

Collaborative Activities for Research, Faculty Exchange, and Student Exchange / Internship during the year.

A. Report: Development and Distribution of Advanced Water Testing Kits for Collaborative Research (Within India)

1. Introduction

Dr. Sarang Dhote, Assistant Professor in the Department of Chemistry, developed an Advanced Water Testing Kit during the 2022-23 academic session. This report details the distribution of the kits to 10 educational institutes affiliated with RTM Nagpur University, SGB Amravati University, and Gondwana University for collaborative research activities.

2. Objectives

- Distribute the Advanced Water Testing Kits to participating institutions.
- Train faculty and students on using the kits for field-based water analysis.
- Facilitate collaborative research among participating institutions.
- Encourage UG and PG students to participate in water quality testing activities.
- Collect and analyze water quality data from various locations.

3. Activities

Kit Development: Dr. Dhote designed and developed the Advanced Water Testing Kit, equipped for on-site analysis of various water quality parameters.

Distribution: The kits were distributed to 10 educational institutes, including:

- RTM Nagpur University
- SGB Amravati University
- Gondwana University

a. Training

Dr. Dhote provided demonstrations and training workshops at each institute, familiarizing faculty and students with the kit's operation and data analysis procedures.

b. Data Collection

UG and PG students used the kits to conduct field-based water analysis at various locations. The collected data was automatically uploaded to Google Maps for easy visualization and analysis.

4. Outcomes

- Successful distribution of Advanced Water Testing Kits to **10** educational institutes.
- Training provided to faculty and students on kit operation and data analysis.
- Collaborative research initiated among participating institutions.
- Increased participation of UG and PG students in water quality testing activities.
- Collection of valuable water quality data from various locations, accessible through Google Maps.
- Continuous monitoring of water samples (January + April + July + October + December)

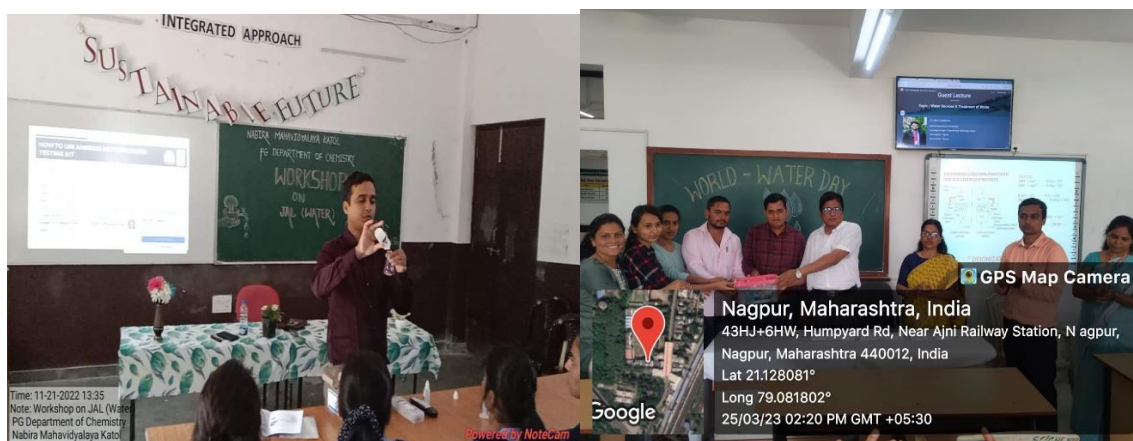

Future Scope

- Continuation of collaborative research using the collected data.
- Expansion of the program to include more institutes and students.
- Development of additional water testing kits for specific parameters.
- Publication of research findings in relevant journals.

Conclusion

The distribution of Advanced Water Testing Kits and the associated training workshops have successfully initiated collaborative research activities among educational institutes in Nagpur, Amravati, and Gadchiroli. This program has fostered student participation in water quality testing and data collection, potentially leading to valuable insights into local water resources and environmental

health. Continued collaboration and expansion of the program hold promise for significant contributions to water quality monitoring and management in the region.

B. Report: JAL - Joint Asian African Lab for Water Analysis App (Outside India)

Developed by: Dr. Sarang Dhote, Assistant Professor, Department of Chemistry

App Description:

- Five Elements** an Android application for fast calculation of observed water analysis data.
- Enables automatic upload of data to Google Maps.

Distribution:

- Sokoto State University, Nigeria
- National University of Science and Technology, Zimbabwe
- Open University of Tanzania
- Easter University, Sri Lanka
- Delta State University, Nigeria
- Makerere University, Uganda
- Various Educational Institutes in India

Impact:

- Facilitated rapid water analysis by undergraduate and postgraduate students.
- Achieved automatic data upload to Google Maps.
- Gained recognition as the JAL project.
- Continuous monitoring of water samples (January + April + July + October + December)

International Collaboration:

International Quiz Competition held on March 22nd, World Water Day.

Overall, the JAL project demonstrates a successful application of technology in collaborative water analysis research and education.

Official Website of JAL - <https://sites.google.com/view/jalsarang/home>

LETTER OF CONFIRMATION FOR THE COLLABORATION

Dear Professor Sangar

It is with great pleasure that I acknowledge receipt of your letter of invitation for collaboration and sincerely thank you for your confidence in us.

I hereby give my approval for intensive collaboration for the field water analyses within the framework of the G-Mapping project.

For your information, I have the necessary knowledge and understanding in the field of chemistry, membrane processes and analysis of various environmental factors, which are the subject of my research work.

I confirm that, we will perfectly collaborate together with my research team at the Centre de Recherche en Hydrobiologie/Uvira-RDC, which will allow an excellent integration into the international network in the field of water resources.

Thank you and accept, dear Professor, the expression of my distinguished sentiments and frank collaboration.

Vercus Lumami Kapepula
Research Associate at the Department of Hydrology
Center de Recherche en Hydrobiologie

DEPARTMENT OF Chemistry

19/08/2022

Dr. Sarang S. Dhote
Assistant Professor
Department of Chemistry
Shri Shivaji Science College, Nagpur
Maharashtra, India

Dear Sir,

Re: Acceptance letter for Collaboration work for On-field water analysis with the G mapping Project.

I am happy to inform you that given an opportunity to work with you and your Chemistry department at Shri Shivaji Science College, Nagpur India we are ready to work together. Collaboration is encouraged by my University and I hope we shall be able to get publishable data.

In your next communication, I expect to hear from you on how I am going to finance the activities of the project since my University normally uses a budget framework for one year of which we did not include such an activity.

Looking forward to working with you and grow our careers together.

Sincerely,

Dr. Edward Mubiru
Lecturer

APPLIED CHEMISTRY DEPARTMENT

Dr. Sarang S. Dhote
Assistant Professor
Department of Chemistry
Shri Shivaji Science College, Nagpur
Maharashtra, India.

24 MARCH 2023

Dear Sir

REF: ACCEPTANCE TO COLLABORATE WITH YOU ON THE ON-FIELD WATER ANALYSIS WITH THE G-MAPPING PROJECT

I would like to express my acceptance to collaborate with you on the On-Field Water Analysis with the G-mapping Project.

We have been doing a lot of water based projects and we shall benefit from the G-mapping that is been offered by this collaboration. We have a desire to be able to use G-mapping for our results presentation with a particular focus on the water quality parameters which are problematic.

Looking forward to a fruitful collaboration.

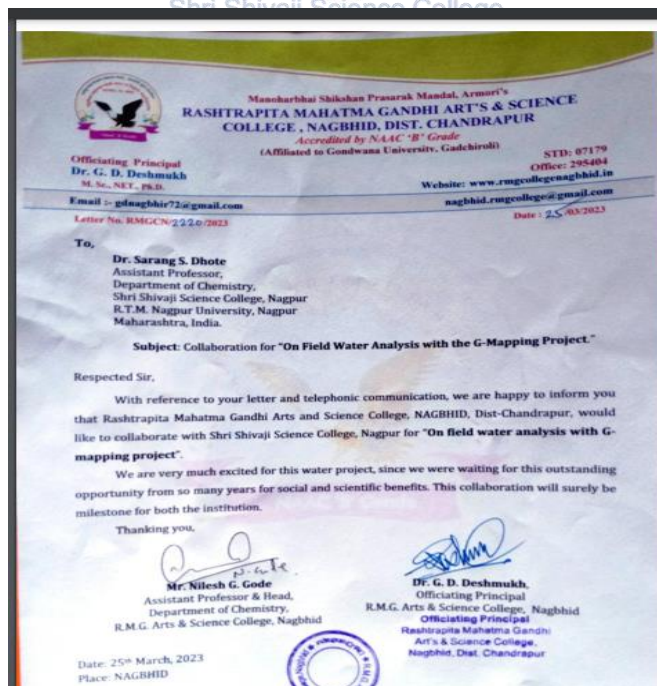

Regards

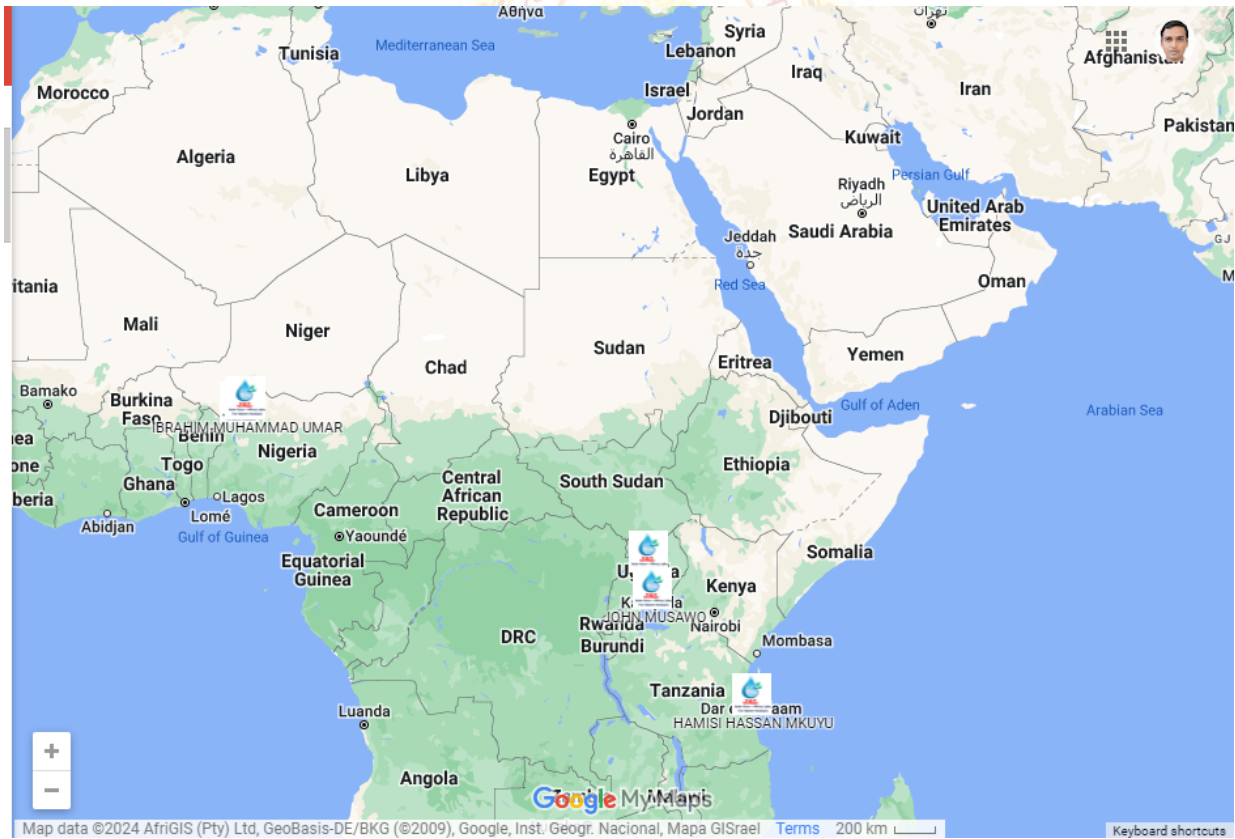

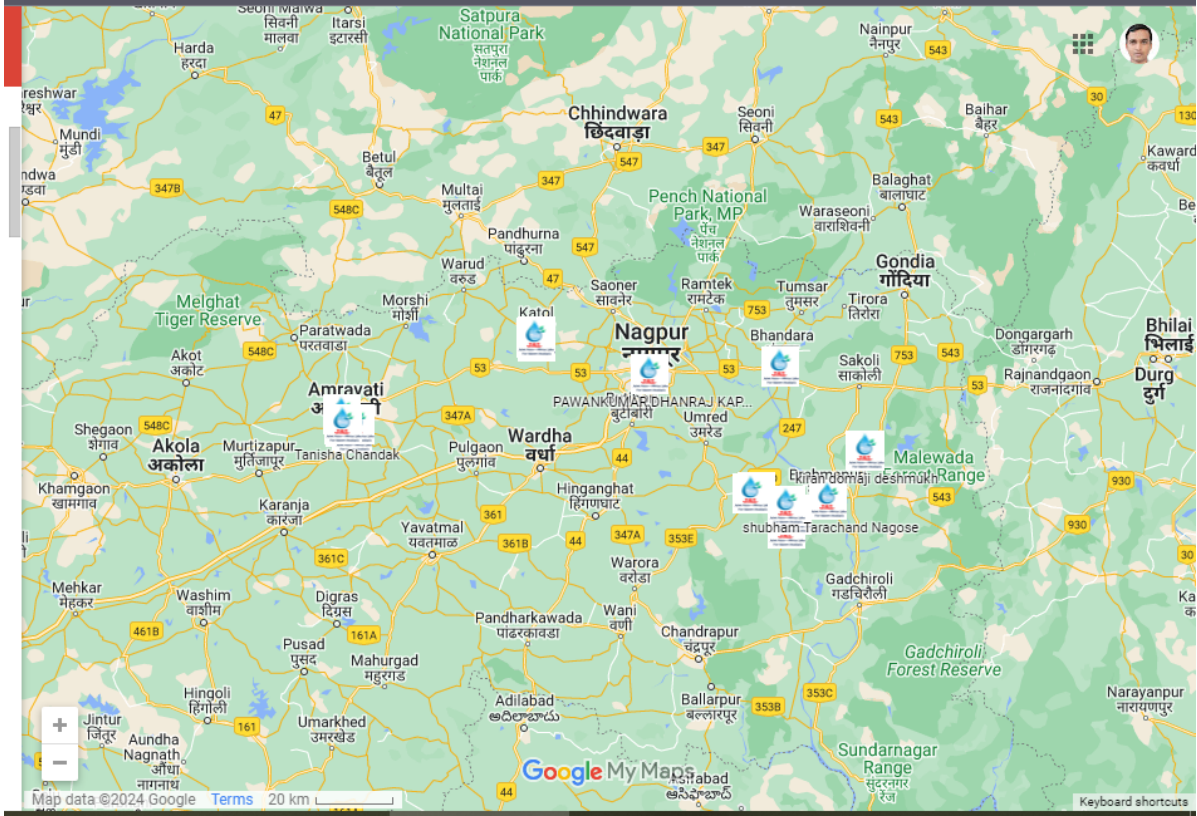

HLOVU YALALA
CHAIRMAN OF APPLIED CHEMISTRY DEPARTMENT

NUST Council Members: Prof L. Majee/Sibanda (Chair), Prof N. Rudhumbi, Mr C. Chirume, Ms. S. Mpuni-Matsiri, Eng I. Kamutera, Dr Eng F. Kronga, Mr LD. Rutene, Mrs. PR. Munyiza, Mr C. Mutandwa, Dr E. Sibanda, Prof ME. Ezioko (Vice-Chancellor), Mr R. Dube, Prof P. Nyamuguru, Dr I. Ncube, Mr M. Luyatho, Mr M. Sigidi-Moyo.
