

Departmental Library

The Department is having Departmental library. It is having thirteen Journals and more than 1200 reference and text books. A temporary reading room is made by converting staff room cum reading room.

The students can take the advantage of reference facilities of the department. There are about 12 Ph.D. Thesis in the Library and number of Field reports for Reference.

Audio-Visual Aids

The Department is equipped audio-visual facilities. There exists Television, Overhead Projector, Slide Projector and Add on cord for display of Microscopic Images on television, LCD Projector etc.

The Department is also equipped with Printers, Scanners and Computers with Software like IGPET, Rockworks, IDRIS, Surfer, IPI 2 Win etc. There are number of CD's related to course material and general readings.

Well Equipped Laboratory

The department has well equipped laboratory for undergraduate with advance research facilities mainly in hydrogeology. The Major equipment's available in the Department includes-

- Projector Microscope
- Walkers' steel yard Balance
- Joly's Spring Balance
- Rock specimens
- Fossils
- Maps- Toposheets, Geological maps, District Resource Maps
- Minerals
- Ores
- Pocket Stereoscopes
- Mirror stereoscope
- Aerial photographs
- Photo imegeries
- Manual and Digital Planimeter
- Megnavision Magnified image viewer for imagery study
- Seismic response timer
- Electrical Resistivity meter
- Magnetic susceptibility meter
- Surveying Instruments
- Spectrophotometer
- Flame photometer
- Quartz Distillation still
- Weighing balance-contech
- Geochemical analysis Glass Plastic, Nickel and Teflone wares
- Portable Water analysis kit
- Pen type pH meter
- Pen type Conductivity meter
- Hot plate
- Oven
- Television 29"
- Slide projector
- DVD player
- LCD Projector
- Laptop
- Computers Printers and Scanner
- Ore microscope
- Softwares SURFUR, ROCKWORK, IDRISI TAIGA, IGPET
- Light Table
- Megnavision Magnified image viewer for imagery study

- Aerial photographs
- Photo imageries
- Seismic response timer
- Electrical Resistivity meter
- Magnetic susceptibility meter
- Surveying Instruments
- Spectrophotometer
- Flame photometer
- Quartz Distillation still
- Single distillation still
- Weighing balance-contech
- Geochemical analysis Glass Plastic, Nickel and Teflone wares
- Portable Water analysis kit
- Pen type pH meter
- Pen type Conductivity meter
- Compound Microscopes
- Dissecting Microscopes
- Chemicals
- Plant Physiology Apparatus
- Plant Ecology Apparatus
- Sophisticated Instruments
