

Rashtrasant Tukdoji Maharaj Nagpur University
AVISHKAR CONVENTION 2023-2024
(Nagpur and Wardha District)

Host Institution - S.S.E.S. Amravati's Science College, Congress Nagar, Nagpur-12
Venue - S.S.E.S. Amravati's Science College, Congress Nagar, Nagpur-12

Date- 16/12/2023

Avishkar convention 2023-24 is a one of the programmes of RTM Nagpur university for the motivation of senior college students in the field of research and innovation.

During the current session 2023-2024 this Avishkar convention programme for Nagpur and Wardha district is hosted by Shri Shivaji Education Society Amravati's Science College, Congress Nagar, Nagpur-12 on dated 16th December 2023.

Prof. Atul D. Bobdey and Dr. Mrs. Rupali A. PatilBhagat were appointed as a Coordinator and Co-coordinator respectively.

Host college has done all the preparations on 15th December and organized inauguration programme at 10.00 AM on 16th December 2023 after the registration of all the participants. The students of 40 colleges from Nagpur and Wardha districts have participated with their posters, models and power point presentations of their ideas.

At 10.30 AM sharply the inauguration program was started. Pro-vice chancellor of the RTM Nagpur university Honourable Dr. Sanjayji Dudhe has shared his valuable time with us as a Chief Guest and inaugurator of the convention. Prof. Sanjayji Dhoble Chairman of Avishkar Convention, RTMNU has chaired the position of Guest of honour. Dr. Mangesh Pathak, Director Student Development Section RTMNU and member secretary of the Avishkar Convention was also the Guest of honour in the programme. The programme was chaired by Honourable Principal of the college Professor. Mahendra Dhore.

After the felicitation of the honourable guests and judges of the Avishkar convention Prof. Atul Bobdey has given introductory remark of the programme. Honourable Pro-Vice chancellor has appreciated the college for hosting this megaevent and the number of registered participants in the convention. All the dignitaries on the dais has presented their views and motivational speeches for the participant students.

The arrangement of exhibition was done by providing the separate coding to each and every exhibits from six categories. In exhibition hall all the exhibits are only recognized by their coding so as to keep transparency during the assessment of the same.

University has provided the two judges for each category of subjects selected from eminent researcher community in the university. Total 257 students from Undergraduate, Postgraduate and Research students has participated in the convention including 40 colleges. From all the colleges one teacher has participated in the convention.

College has made the arrangement of lunch for the student and teacher participants during the convention programme. At 6.00 pm the judges has submitted their assessment sheets and convention programme was concluded.

PERPETUAL WATER PUMP FOR IRRIGATION

Sanskriti zade⁵⁹ , Dr. Ajay pise

Dadasaheb balpande college of pharmacy Nagpur

e-mail : sanskritizade59@gmail.com

Abstract :

In regions where electricity costs pose a significant burden on farmers and where the erratic availability of power hinders agricultural activities, a pressing need arises for an alternative, cost-effective irrigation solution. This paper introduces the concept of a "Perpetual Water Pump" designed to address the challenges associated with conventional electric and solar-powered pumps. The Perpetual Water Pump is a groundbreaking innovation that eliminates dependency on electricity grids and circumvents the high upfront costs associated with solar pumps. The system harnesses self-generated energy through a wind turbine motor, providing a reliable and continuous source of power for water pumping. By leveraging wind energy, the perpetual water pump ensures irrigation access even in areas with inconsistent or no electrical supply.

Moreover, the pump boasts an eco-friendly design, minimizing water wastage typically seen in conventional irrigation systems. The perpetual water pump prioritizes efficiency by aligning water usage with crop requirements, contributing to sustainable farming practices and environmental conservation. One of the key advantages of this system is its portability, allowing farmers to move the pump easily across fields as needed. The affordability of the perpetual water pump makes it an accessible solution for small and medium-scale farmers, empowering them with a reliable and cost-effective tool to enhance agricultural productivity.

In conclusion, the perpetual water pump offers a sustainable and affordable alternative to conventional irrigation methods, addressing the challenges associated with expensive electricity and the limitations of solar power. By harnessing wind energy, this innovative solution ensures year-round irrigation, minimizes water wastage, and contributes to the overall resilience and productivity of agricultural communities.
