Establishment of Lokvidyapith and Contribution Towards Education

Dr. Panjabrao Deshmukh founded Lokvidyapith on 30 Dec.1950 which was inaugurated by then President Hon'ble Dr. Rajendra Prasad. While giving the fact of education in India, Dr. Panjabrao Deshmukh quote the statement of Lenin who mentioned that in 1913, about four fifth of all children and young people in Russia are deprived of education.

Dr. Panjabrao Deshmukh pointed out that the situation of education in India in 1950 was as in Russia in 1913. So he emphasized the need for Lokvidyapitha who will cater the needs of all the sections of the society. In his speech, Dr. Panjabrao Deshmukh said 'Workers Educational Association' of England was a model worthy of imitation to us. The Workers Educational Association of England is bigger than any Universities in Great Britain. Dr. Panjabrao Deshmukh was a pragmatic philosopher who established the platform of education for the welfare of large masses irrespective caste, creed, religion, sex and any other.

Contribution to the Constitution of Republic India

Dr. Panjabrao Deshmukh made useful contributions as a member of Draft Committee for the Constitution of the Republic India chaired by Dr. Bhimrao Ambedkar. He has devoted his efforts as a member of the drafting committee for making the Constitution of India from Central Provinces and Berar. In November 1946 the constituent assembly was formed with Dr. Rajendra Prasad being appointed as the President of the committee. On 26th November 1949 the "Constitution of India" was passed and adopted by the assembly. The Constitution of India came into force on 26th January 1950, which we celebrate as Republic Day of India.

Dr. Panjabrao Deshmukh insisted on accepting parliamentary democracy. On speaking with the draft constitution, he said that, parliamentary democracy is essentially meant for maintaining the status quo. It is not meant to bring about radical change from the existing state of affairs. Further he said, he would not be surprised if this constitution does not last long, because it does not answer the aspiration of the man in the street at the present time. He observed that the principles of equality, liberty and fraternity adopted in the constitution will lose their significance in two hundred years. Under these phrases it has been possible for various countries to maintain the upper layers where they were and to exploit the lower ranks to their hearts' content. He warned there will have to be some sort of rebellion or revolution if we do not get proper representatives to run the government with this constitution.

Education as Means of Social Reform

दोन शिक्षणमहर्षी, दोन कर्मवीर – सातान्याच्या रयत शिक्षणसंस्थेचे संस्थापक भाऊराव पाटील आणि अमरावतीच्या श्री शिवाजी शिक्षण संस्थेचे संस्थापक डॉ. पंजाबराव देशमुख. डावीकडून तिसऱ्या सौ. विमलाताई पंजाबराव देशमुख

Dr. Panjabrao Deshmukh not only founded Shri Shivaji Education society but also made the provision on primary education by increasing the local cess by 50% in one deep which could embark an extensive program of compulsory education to the doorsteps of masses in general and underprivileged rural strata and women in particular. He considered education as a means of social reform.

On the occasion of Silver Jubilee of Shri Shivaji Education Society in the presence of the then President of India Dr. S. Radhakrishnan, Dr. Panjabrao Deshmukh declared his mission of education as follows. “Let other Universities devote their money and energies to production of only supermen. Let my Universities and Lokvidyapitha strive to make useful, patriotic men and women out of ignorance, filth, poverty and misery in the heavy darkness of India”.
