Chairman
Prof. M. P. Dhore
Principal
SSES's Science College, Congress Nagar, Nagpur

Organizer
Prof. G. R. Avachar
Vice-Principal
SSES's Science College, Congress Nagar, Nagpur

Convener
Dr. Pranita B. Gulhane
Department of Microbiology & Biotechnology

Shri Shivaji Education Society's Science College, Congress Nagar, Nagpur, hosted a webinar on “An Expert Talk on Mucormycosis: Myths & Facts” on May 31, 2021. The event was conducted via the Google Meet digital platform and aimed to raise awareness among students and faculty members about Mucormycosis, including its side effects and precautionary measures.

The webinar began with the virtual arrival of dignitaries and a verbal welcome extended to them. Dr. Pranita Gulhane introduced the guest speaker, Dr. Arvind M. Deshmukh, President of the Microbiologists Society of India. Dr. Deshmukh delivered an insightful talk on Mucormycosis, highlighting the importance of understanding the disease, especially in the context of COVID-19. He emphasized the risks associated with steroid treatments during the pandemic and offered valuable advice on preventive measures.

Following the expert talk, a question-and-answer session allowed participants to engage directly with Dr. Deshmukh, seeking clarification and further information on the topic. The session concluded with remarks by Prof. Mahendra P. Dhore, Principal of S.S.E.S.A's Science College, who provided a thoughtful summary of the key points discussed.

The program was anchored by Dr. Pranita Gulhane, and the vote of thanks was delivered by Mrs. Madhuri Walvekar. The webinar saw a robust attendance of 27 students and faculty members, reflecting a strong interest and engagement with the subject matter. The positive response to the interactive session underscored the value of the information shared by the eminent expert in Microbiology and Biotechnology.

Action Taken: In this virtual meeting, the guest speaker provided valuable insights on COVID-19 and Mucormycosis. Attended by 27 students and faculty members, the session effectively raised awareness about the disease and its implications. Participants learned about the critical connection between COVID-19 and Mucormycosis, including risk factors, preventive measures, and the importance of early detection. The informative lecture equipped attendees with practical knowledge to better protect themselves and others, making the program both impactful and beneficial.
