The 2nd day was celebrated on Thursday 25th August 2022. The first session was engaged by Guest Dr. Shashikala Wanjari, Former Vice Chancellor, SNTDWU, Mumbai, Frames of Reference serve a valuable purpose because they enable us to take in a wide variety of information, and

process it based on our past. Your frame of reference matters a lot in how you interpret and what you choose said by the Guest Dr. Shashikala Wanjari. Later said that you might be attracted to this institution just by hearing its name and fame. Due to that frame of reference, a perception gets developed which will have a positive impact on you. That's the reason you choose this Shivaji College. An identity is who or what a person or thing is. Your identity is how you define who you are; it is also how others define you. Identity plays an important role in empowering individuals to exercise their rights and responsibilities fairly and equitably in modern society.

Understanding the importance of identity is key to changing your life for the better. Your identity depends on the time frame you focus on: Do you define yourself based on your past; your identity depends on the time frame you focus on. Parental Influence, Home Environment, School Environment, Culture, and Family Treatment play a very key role in developing the personality. The bond and interaction between the teacher and student make teaching-learning more effective. The involvement of students in their favorite topic takes them towards expertise in that subject. Later on, in the next session, the Heads of various departments addressed the student.

In Prof M. P. Dhore stresses the importance of providing a holistic orientation to new students. This includes introducing them not only to academic aspects such as curriculum and course requirements but also to the institution's values, culture, and extracurricular opportunities.
