Guest Lecture on Biodiversity
Session: 2019-2020**

Date: 20/08/2019

Venue: C1 classroom

Organized by: Department of Zoology, Shri Shivaji Education Society Amravati's Science College

Biodiversity describes the variety of life on Earth. It encompasses the 8 million species on the planet—from plants and animals to fungi and bacteria; the ecosystems that house them; and the genetic diversity among them. Biodiversity may be seen as an intricate web, in which each part is interdependent. When one component is changed—or removed—the entire system is affected, and this can produce positive—or negative—consequences.

The guest lecture on biodiversity was organized to educate college students about the importance of biodiversity, its role in maintaining ecological balance, and the threats it faces. The event aimed to foster a deeper understanding and appreciation of biodiversity among students

As a part of syllabus department of Zoology organized the guest lecture on Biodiversity by Dr. Chancel Deshmukh on 20/08/2019 at 11:30 am

Dr. S. S. Deshmukh introduced the guest. Dr. A. D. Bobdey, H.O.D of Zoology Department and all teaching staff were present on this occasion.

Objectives

1. **Educational Exposure:** To provide students with comprehensive knowledge about biodiversity and its significance.
2. **Awareness:** To raise awareness about the threats to biodiversity and the need for conservation efforts.
3. **Engagement:** To encourage students to participate in biodiversity conservation activities.

ACTION TAKEN:

Students gained a comprehensive understanding of biodiversity and its significance. The lecture helped dispel common misconceptions about biodiversity and emphasized the importance of conservation. Students expressed interest in participating in future biodiversity conservation activities and initiatives.
