Students Attendance for Workshop

Action Taken Report on Workshop

This section details the actions taken or planned to build on the workshop's successes and address any areas for improvement identified by the organizers.

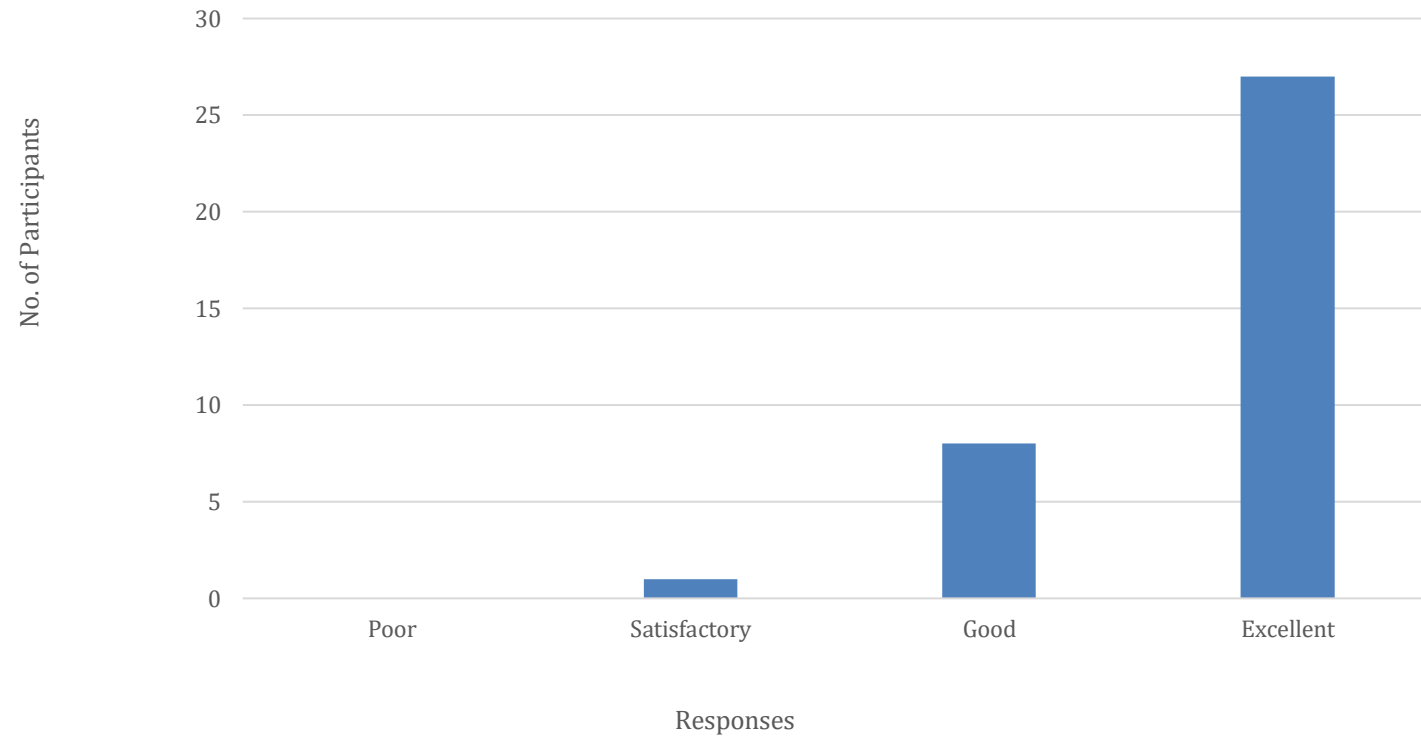

- **Feedback from Faculty/Organizers:** All resource persons were debriefed. They reported high participant engagement and successful achievement of core objectives.
- **Action Plan for Resource Enhancement:** Based on internal evaluation, additional learning resources (e.g., recommended reading lists and online tutorials) will be compiled and shared with participants.
- **Publication of Outcomes:** A summary of the workshop's outcomes will be featured in the departmental newsletter and on the institution's website to promote future events.

Feedback Analysis

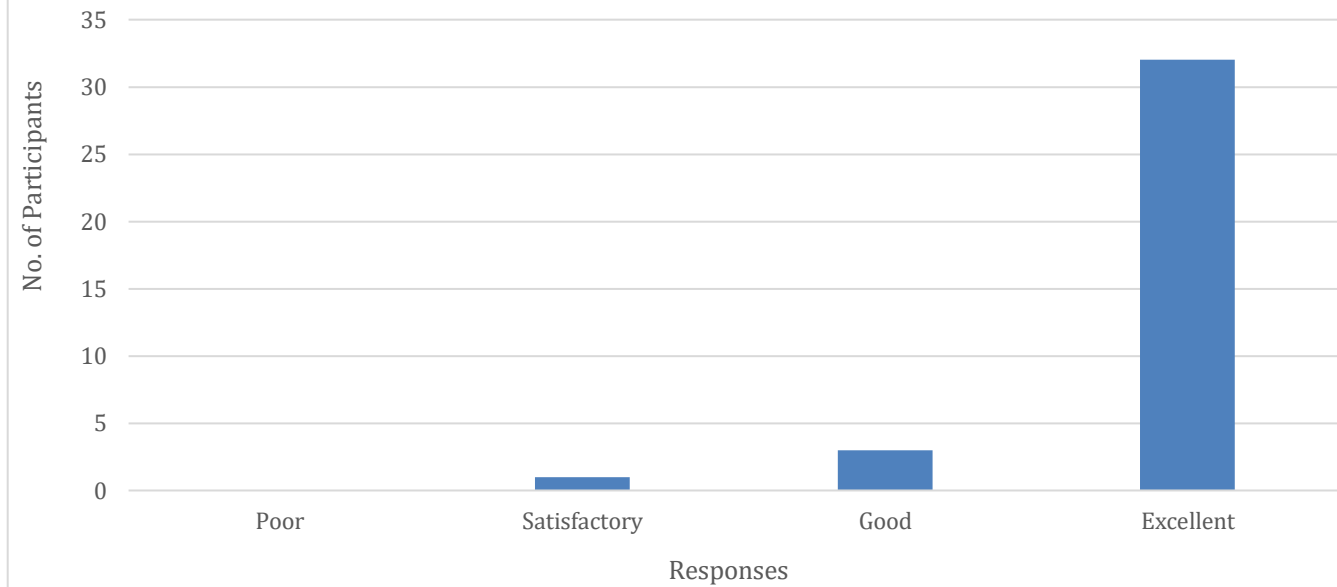

This section assesses the workshop's effectiveness based on feedback forms and includes the actions taken or planned in response to that feedback.

Feedback Point	Summary of Feedback	Action Taken / Plan
Content Quality	Participants rated the content highly, particularly the sessions on data analysis.	No major changes are necessary for this module; retain content for future workshops.
Duration of Sessions	Some participants felt certain complex topics needed more time for hands-on practice.	Allocate an additional 60 minutes for practical, hands-on exercises in the next workshop.
Technical Issues	A few participants reported technical glitches during the online sessions.	The technical support team will conduct pre-session testing and provide a dedicated helpline for future online events.
